

What are the possibilities?

EXPRESSWAY (grade separated intersections)¹

Advantages

- Highest mobility on 20/26
- Highest peak hour travel speed (45-55 mph)
- Highest Capacity (64,000 veh. per day per 4 lanes)²
- Increased Safety (fewest crashes)

Disadvantages

- Less Convenient Access
- Requires additional local streets
- Fewer North-South Connections

Cost: +\$200 Million

Travel time: ± 16 minutes

¹ May include limited at grade intersections

² COMPASS planning thresholds
